

Hurricane Season Tips for Your Small Business

Ron C. Henderson, Deputy Commissioner
Office of Diversity and Opportunity

James J. Donelon
Commissioner of Insurance

The Atlantic Hurricane Season runs June 1 through November 30 and the Louisiana Department of Insurance encourages you to take action to protect your property and possessions. We’re providing a guide that will help you be insurance-ready if a storm threatens our state. Here’s a breakdown of the checklist.

Develop a Disaster Plan - Disaster planning should include determinations on whether to evacuate, preparing facilities and equipment for the disaster, contingency plan for relocating or reopening following the disaster and utility disruptions. It should also include plans for communicating with employees, clients and other stakeholders.

Inventory list - Make a list of the inventory of your business facility, including furniture and equipment, for the adjuster in case of a claim. It’s also a good idea to take pictures or make a video of each room.

Flood insurance - Most business insurance policies do not include flood coverage. Check your policy documents to make sure you have the coverage you need and identify your hurricane deductible. If you don’t have appropriate coverage, you might consider purchasing flood insurance. Be aware that most flood insurance policies do not take effect until 30 days after purchase.

Insurance Policies and Financial Records - Make sure that you have copies of important documents and insurance policies. Keep originals in a safety deposit box if possible. Also, you will want to have your agent’s contact information to enable you to start the claims process as soon as possible.

Hurricane Preparation Checklist
