Your Message	I know this must be a surprise!! BCBS is in class action lawsuit which myself n thousands of others are suing them for premium gouging n lying etc. I have dealt with them n their lies during Obama health insurance scandal. This has not been brought up or discussed in the articles in central news so I should probably tell them since your office has not brought it up. I know lots of class action lawsuits get delayed so many times the defendants pass away before settlement because of delay delay... Have a nice day! Fran wooley Zachary, la
