I have serious concerns regarding the proposed reorganization and sale of BC/BS of Louisiana. Higher premiums and decreased coverage along with record inflation will be detrimental to millions of Louisiana policy holders trying to make ends meet. I have researched the reviews for Elevance (Blue Cross Anthem) and they are very disturbing. <https://wallethub.com/profile/hi/anthem-blue-cross-blue-shield-13016820i> How can a sale to a company with ratings this low be a benefit to Louisiana policy holders? Thank you for your time.
