| Your Message                       | dear Commissioner, very grateful that the state has caused consideration of elephants, merging with Blue Cross Blue Shield or taking over. We are a self insured, School Board insurance, and this works beautifully for all of us stakeholders. We have not heard much good in the reports of elephants being in other states. please look further into those claims and make the wise best decision for all employees in the state who are happy with Blue Cross Blue Shield. Thank you! |
