Subject: The sale of BC/BS

Please don;t do this to us!!! When something that we have with BC/BS is working for us, why!!! You don't try to fix something that is not broken. We would be the one that would be hurt if this move is made. We do not need any change. I have never had to call BC/BS because of something being not paid. They pay so well and on time. Please don't do this to your elder people who gave you our time. Thank you!
