Your Message	I am deeply concerned about the proposed sale of BCBS to Elevance, an out-of-state, for-profit insurance giant. I am a retired teacher and have BCBS as my supplement. At this stage in my life, a change to my health care plan could adversely affect my quality of life. I urge Commissioner Donelon to leave well enough alone. Would he be interested in the sale if he was still going to continue being our commissioner? There are too many unanswered questions for this sale to go forward.
