The list above includes the main portions of the house. However, don't forget other areas, such as closets, attic, garage, porch/patio, work room and shed. Once you have completed your home inventory, check with your insurance company or agent to determine your available coverage and what, if any, additional coverage you may need. Remember to store this list in a safe place away from your home. Visit www.idi.la.gov for disaster preparedness tips.

Natural disasters can strike anywhere at any time. That's why it's important to have a room-by-room inventory of your home. A home inventory — along with photos and proof of ownership — will make it easier to file an accurate, detailed insurance claim in the case your home is damaged or destroyed in a disaster. Complete the checklist below or use the Home Inventory App from the National Association of Insurance Commissioners (NAIC) which allows you to scan barcodes and upload photos to easily create a record of all your belongings. You can find the app at <https://content.naic.org/consumer/home-inventory>.
